Mr. Solis presents the HEP Champion Award to Ms Villalobos

Veronica Villalobos of the Equal Employment Opportunity Commission was assigned the responsibility of designing, conducting, and reporting on findings of a Hispanic Working Group developed for the purpose of assessing the state of Hispanic employment in the Federal Government, identifying major barriers to equitable Hispanic representation in the Federal workforce, and recommending strategies for eliminating barriers to achieve desired results. Ms. Villalobos applied unequalled knowledge of the Hispanic underrepresentation issue, along with knowledge of individuals across the United States with the best understanding of the many dimensions of this problem, to select the members of the working group. She was masterful in guiding the working group to keep the membership focused on the task assigned while at the same time allowing the members the freedom needed to express their ideas. Ms. Villalobos managed the many egos of the working group members skillfully to produce an exceptional report with authoritative findings and practical solutions that will serve the Federal and Hispanic communities in a very real and positive manner. The findings and recommendations of the Hispanic Working Group will be incorporated into EEOC and Federal Government policies and initiatives intended to improve the recruitment, retention, development, and advancement of Hispanics in the Federal workforce.
